1A - General information

The Transmitter Solutions - Monarch 318DOPW1K transmitter is a key chain style mini transmitter operating at 318 MHz. It has been designed for use with programmable telephone entry, security, and access control systems operating with a 318 MHz frequency receiver. The protocol is MicroCLIK compatible and the code sent by the transmitter includes a 14 bit security code which allows up to 65,384 code combinations and 6 bits of facility code which allows up to 64 facility codes.

2 - NUMBERING

Each transmitter is manufactured and sold with a different factory-set serial number.

3- PROGRAMMING

The transmitter must be programmed into your system memory. Your own installer or reseller will provide you with the necessary instructions for your system.

4 - OPERATION

A - Firmly depress the button until the small red LED illuminates.
B - After the LED has illuminated, release the button.
If the device you are attempting to activate does not respond, repeat steps A and B or consult section 6 (Troubleshooting) of this manual.

5 - BATTERY ACCESS

To access the battery, open the case with a screwdriver acting on the slot between the cover and the bottom and remove the bottom, as shown in Fig 3a and 3b. Slide out the old batteries, and replace them with the news ones [CR2016] respecting the polarity, with the positive (+) side upward.

NOTE: Please dispose of the batteries properly according to local laws and regulations.

Test proper better installation by verifying that the red LED illuminates when the button is pushed.

2 - TROUBLESHOOTING

| PROBLEM | SOLUTION |
|--|--|
| The system does not receive the transmitter signal. The transmitter LED will not light. | Replace the transmitter batteries. |
| The system does not receive the transmitter signal. The transmitter LED is ON. | Check to verify the transmitter is programmed into your system |
| The operating range is reduced. | Replace the transmitter batteries. |

Transmitter Solutions - Type : 318LIPW1K

FCC ID : SU7318LIPW1K

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept interference received, including interference that may cause undesired operation.

Notice

Any changes or modifications to Transmitter Solutions equipment not expressly approved by Community Controls could void the manufacturer's warranty.

WARRANTY

The warranty period of Transmitter 318 transmitters is 24 months, beginning from the manufacturing date of the transmitter. During this period, if the product does not operate correctly, due to a defective component, the product will be repaired or replaced at the sole discretion of Transmitter Solutions. The warranty does not extend to the transmitter case which can be damaged by conditions outside the control of Transmitter Solutions, or to battery life.
